

DIVISION 5 - METALS

**Design
Fabricate
Install**

Johansen Mechanical inc.

Our Custom Metals Division capabilities of Designing, Fabricating and Installing expands beyond the unique details and components that form the architectural style of building infrastructure. We also provide our clients with custom metal work made-to-order ranging from Artwork and Displays to Kitchen and Medical Equipment.

Steel Fabricating Contractors in Washington, Alaska & Hawaii

Experience You Can Count On!

When you trust in Standard Steel Fabricating you get a company that offers the best product at a reasonable price. With over 80 years in business, we have the experience and expertise to take on jobs of all sizes. Our clients choose us because we offer unmatched expertise and service.

Our services and expertise cover a wide range of applications including:

- Structural Steel Components
- Architectural Steel Elements
- Stairway Systems and Railings
- Utility Substation Structures
- Box Girders
- Marine Structures such as Dolphins & Gangways
- and Much More

We've earned our client's trust by:

- Maintaining Quality Control on All Products
- Offering On Time Delivery
- Meeting Safety Requirements, Codes, & Practices
- Offering Fast and Efficient Production

With an experienced team on our side, we are able to produce up to 300-tons of structural fabricated products per month. Our products can range up to a maximum length of 120-ft. and have an overall lifting capacity at 20-tons. With such diversity, we have the ability to take on all types of projects of different sizes ranging from construction clientele to industrial, institutional, commercial and marine and more.

We have membership in the following professional associations
